# MEDICAL HUMANITIES VIRTUAL GALLERY

Dear colleagues and students,

We are delighted to announce that the Medical Humanities (MH) Virtual Gallery has been created and launched on our MEHU website. Every year, our MBBS Year 1 students are engaged in their Medical Humanities Creative Presentations which are based upon group works exploring with one of the **5 themes: Doctor & Patient Identities, History of Medicine, Living & Dying, Culture & Care and Social Justice/Humanitarianism.**

Built upon the HKU-based platform Curios, this Virtual Gallery showcase around 50 of the best MH creative works across 10 years at MEHU. You will be so amazed that our Year 1 students are full of creativity in expressing on the humanistic spirit of medicine, the ethics of clinical life, the emotion of sickness and health, this importance of social medicine, and many other inspiring and poignant topics via visual artworks, poems, short films, musical performances and other creative endeavours. Join us in celebrating 10 years of the Medical Ethics and Humanities Unit by enjoying the colourful expressions of our most creative student groups!
